

Alliance of Councils for Albury Wodonga Region Health Services

April 15, 2026

The Alliance responds to Albury Wodonga Health's new interim Chief Executive, Professor Andrew Way's comments about the Albury Hospital redevelopment.

"The Alliance acknowledges comments from Albury Wodonga Health's new interim Chief Executive, Professor Andrew Way, regarding the Albury Hospital redevelopment and welcomes his engagement on this important issue.

"The question for our community is not whether funding is appreciated, but whether the proposed redevelopment will genuinely address the scale and complexity of demand in our region.

"Comparisons to other communities risk missing the point. This is about ensuring the right solution for a rapidly growing cross-border regional centre already operating beyond capacity.

"Over 200 clinicians from the Border Medical Association and across the region signed their names to a letter highlighting the inadequacy of the proposed redevelopment and for a return to the Clinical Services Plan 2021.

"These clinicians are part of this community and we must listen to what they are telling us.

"The Alliance has invited Professor Way to meet, to share what we hear directly from community members, healthcare workers and those on the ground."
